8 October
London
United Kingdom
Reverse Engineering With AI
5 6 7 Oct

TIME: 3 DAYS

Pick yours.

AI Agents for Attack Investigation cities 1–6

Agent Learning: RAG & Fine-tune Cybersec Models + Private AI for DFIR: Local LLMs Ljubljana

Reverse Engineering With AI: AI-Assisted Malware Analysis London

SUBJECTS

- Build an investigative AI agent: an LLM connected to forensic tools through MCP
- Feed it real evidence: EVTX, Sysmon, Velociraptor and KAPE output
- A full ransomware case, agent versus manual analysis
- Prompt injection planted by attackers in logs and file names
- RAG and fine-tuning of cybersecurity models on private, local LLMs
- AI-assisted reverse engineering and malware analysis

CQURE ACADEMY WORLD CLASS EXPERTS

Paula Januszkiewicz
Founder & CEO, CQURE
Microsoft Regional Director and MVP, top-rated speaker at the world's biggest conferences.

Amr Thabet
